RELEVANT EXPERIENCE

SDI Industries Melbourne, FL   12/15/2022 - Current
Software Engineer
- Provided prompt solutions and utilized methodologies to create T-SQL scripts for backend systems.
- Coordinated with frontend engineers to make changes to our web applications. Lead the team to improve the current technology stack.
- Created backend scripting for file transfers, coordinate based mapping and tools for developers.

Luna Rose Store Orlando, FL   10/20/2020 - 4/09/2022
Junior Backend Developer (Contract)
- Developed the backend of the ecommerce website hosted on shopify. Tasked with developing tools and solutions for the employer's needs:
- Collaborating with clients in order to develop effective Search Engine Optimization(SEO).
- Developed the website into a Progressive Web Application(PWA).
- Created Python scripts to allow employers access to orders and managed queries, transactions and other data through T-SQL that was created and managed by myself.

Matthew Rental Orlando, FL   5/6/2021 - 7/12/2022
Web Developer (Contract)
- Created the web applications for the client to allow for improvement in customer care and consumer accommodations:
- Constructed email automation through Node.js to market ratings after a customer had visited.
- Built a web scraper with Python to allow the employer to gather information about their position on search results and stored in a database through MySQL.
- Custom built web pages made with React and Node.
